ABOUT MİRRORED IMAGE

I was blessed to be able to open Mirrored Image in 2018. These treatments have been handpicked to enhance the you that is already beautiful. Knowing that great skin comes from the inside out, I chose a full body, mind, body, and spirit approach. I chose treatments and procedures that work, accumulated from my 20 years of clinical, professional, hands-on experience and current relative research with the treatments and technology available today. I have had the pleasure of working with the top Chicago & Wisconsin based plastic surgeons, dermatologists and general physicians to create these colorful, proactive & restorative, incredibly effective treatments for my clients. I am always researching and updating to give my clients the best available & I am so excited to bring that knowledge and experience to you.

Great skin starts from within. The nutrients we put in reflects the skin we see outwardly! ~Melissa Muller
